

Year 3 – Autumn 1

I know

For the next half term children will be learning their number bonds up to 50

- 1. Number bonds to 10**
- 2. Number bonds to 20**
- 3. Number bonds to 50**

Number bonds are pairs of numbers that can be added together to make another number. E.g. $4 + 6 = 10$ They are some of the most basic and most important parts of maths for children to learn.

Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? Can you play some games to help learn these facts off by heart? Can you learn the associated subtraction facts too?
